ANNEXURE-3

I. Conservation of Energy

(a) Energy conservation measures taken:

The conservation of Energy and Water, and the protection of the environment – air, water & Land from pollution – is an integral part of Design and Development. The cost of power / fuel consumption doesn't constitute a major cost of the project. This cost per se is the power and fuel purchased for construction process such as operation of cranes, lifts, conveyors lighting, welding, cutting, drilling and operation of other electrical instruments at the project sites. The buildings being Mega and High raised structures it is imperative to use power assisted gadgets for the safety of the workers.

However the company has been taking energy saving measures viz.,

- Design of Energy Efficient Buildings by carrying out Energy & Fresh Air Modelling.
- Installation of energy efficient CFL and LED lamps / lights in Common areas of the Buildings, Street lights & for Landscape Lightings.
- Daylight sensors are used to optimize the use of energy efficient lighting systems
- Use of occupancy sensors in sparingly used area in the buildings, viz., Rest Rooms, Change Rooms, Corridors, Staircase, etc.
- Use of double glazed glass as building material to maximize the use of Day-light in offices and projects of the company and at the same time not increasing the air conditioning load by suitably shading the building.
- Non-air conditioned buildings are designed with cross ventilation to minimize the dependency on fans, coolers, split air conditioners, etc.
- Utilization of solar energy wherever possible for water heating and lighting in the project
- Energy efficient Lifts and Pumps.
- 100% rainwater harvesting systems are installed in all company projects to conserve water & energy
- The municipal solid waste is segregated at source for Organic & Inorganic Waste. The Organic Waste is converted to compost within the project site. The compost is used as manure in the landscaped / greenbelt area.
- The Inorganic Waste is further segregated into various sub categories viz., based on its recyclability and value. This segregated waste is sold to authorized recyclers.

BRIGADE

Building Positive Experiences

- We have also adopted the use of Aluminium Formwork for construction. The technology is environment friendly as there is no use of timber. The formwork gives the box or cellular design resulting in the walls giving support to the super structure in two directions. As a result, the structures are more resistant to earthquakes than the traditional RCC column and beam designs.

- (b) Additional investment and proposals, if any being implemented for reduction in consumption of energy.

The Company as a matter of policy has a regular and ongoing programme for investments in energy saving devices, wherever possible, used in construction. Studies are being made to reduce energy consumption and make suitable investments in this area, if necessary.

- (c) Impact of measures taken at (a) and (b) above for reduction of Energy consumption and consequent impact of the same

The impact of the measures taken cannot be quantified as the company is in the construction field.

- (d) Total energy consumption and energy consumption per unit as per form – A of the Annexure to the rules of industries specified in the schedule thereto: Not Applicable.

II. Technology absorption

Company works on a mechanized process to reduce cost and increase the efficiency of the operations. Company has from time to time engaged international architects and consultants for using the latest designs and technology.

Company has implemented ERP package SAP for integrating the various process and operations of the Company.

Modern Technology / Machinery is used by the Company from time to time to achieve maximum efficiency in operations.

III. Research and Development

More standardized building elements which adheres to quality standards

More efficient and effective planning of construction activities for maintaining the quality.

Benefits derived from R & D

The buildings being constructed adhere to highest standard of quality.

Expenditure on R & D

It forms part of the project cost and cannot be quantified separately.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
6. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
7. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

8. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
9. As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:
 - (a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances; Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal

financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - (d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - (e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
11. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other matter

12. The financial statements of the Company for the year ended March 31, 2024, were audited by another firm of chartered accountants under the Act who, vide their report dated May 9, 2024, expressed an unmodified opinion on those financial statements.

Report on other legal and regulatory requirements

13. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
14. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except for the matters stated in paragraph 14(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).

- (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors as on March 31, 2025, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025, from being appointed as a director in terms of Section 164(2) of the Act.
- (f) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our remarks in paragraph 14(b) above on reporting under Section 143(3)(b) and paragraph 14(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).
- (g) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 26(c) to the financial statements.
 - ii. The Company was not required to recognise a provision as at March 31, 2025 under the applicable law or Indian Accounting Standards, as it does not have any material foreseeable losses on long-term contract. The Company did not have any derivative contracts as at March 31, 2025.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended March 31, 2025.
 - iv. (a) The management has represented that, to the best of its knowledge and belief, as disclosed in Note 33(ii) to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The management has represented that, to the best of its knowledge and belief, as disclosed in the Note 33(iii) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) above contain any material misstatement.

- v. The Company has not declared or paid any dividend during the year.
- vi. Based on our examination, which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility that has operated throughout the year for all relevant transactions recorded in the software, except the audit trail has not been enabled in respect of certain master data and for modification, if any, by certain users with specific access, for certain records at the application level. During the course of performing our procedures, except for the aforesaid instances of audit trail not maintained at application level, where the question of our commenting on whether the audit trail has been tampered with does not arise, we did not notice any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the company as per the statutory requirements for record retention.

Further, for database layer, which is operated by a third party service provider, and in the absence of any information pertaining to audit trail in the independent service auditor's report, we are unable to comment on whether the audit trail feature of the aforesaid database was enabled and operated throughout the year for direct database changes recorded in that software or whether there were any instances of the audit trail feature being tampered with.

15. The provisions of Section 197 read with Schedule V to the Act are applicable only to public companies. Accordingly, reporting under Section 197(16) of the Act is not applicable to the Company.

Report on the Internal Financial Controls with reference to Financial Statements under Section 143(3)(i) of the Act

1. We have audited the internal financial controls with reference to financial statements of Brigade Properties Private Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

Referred to in paragraph 13 of the Independent Auditors' Report of even date to the members of Brigade Properties Private Limited on the financial statements as of and for the year ended March 31, 2025
Page 1 of 5

In terms of the information and explanations sought by us and furnished by the Company, and the books of account and records examined by us during the course of our audit, and to the best of our knowledge and belief, we report that:

- i. (a) (A) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of Property, Plant and Equipment and Investment property.

(B) The Company does not have any Intangible assets and accordingly, reporting under clause 3(i)(a)(B) of the Order is not applicable to the Company.
- (b) The Property, Plant and Equipment and Investment property are physically verified by the Management according to a phased programme designed to cover all the items over a period of 3 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, no such assets were due for physical verification during the year. Since no physical verification of Property, Plant and Equipment and Investment property was due during the current year the question of reporting on material discrepancies noted on verification does not arise.
- (c) The title deeds of all the immovable properties, as disclosed in Note 3.2 to the financial statements, are held in the name of the Company.
- (d) The Company has chosen cost model for its Property, Plant and Equipment (including Investment property). Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment (including Investment property) or Intangible Assets does not arise.
- (e) No proceedings have been initiated on the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and Rules made thereunder, and therefore the question of our commenting on whether the Company has appropriately disclosed the details in the financial statements does not arise.
- ii. (a) The physical verification of inventory has been conducted at reasonable intervals by the Management during the year and, in our opinion, the coverage and procedure of such verification by Management is appropriate. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory.
- (b) During the year, the Company has been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, from a bank on the basis of security of current assets. The terms of sanction do not stipulate filing of quarterly returns or statements with such bank, and accordingly, the question of our commenting on whether the returns or statements are in agreement with the unaudited books of account of the Company, does not arise.
- iii. The Company has not made any investments, granted secured/ unsecured loans/advances in nature of loans, or stood guarantee, or provided security to any parties. Therefore, the reporting under clause 3(iii), (iii)(a), (iii)(b), (iii)(c), (iii)(d), (iii)(e) and (iii)(f) of the Order are not applicable to the Company.

- iv. The Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Sections 185 and 186 of the Act. Therefore, the reporting under clause 3(iv) of the Order are not applicable to the Company.
- v. The Company has not accepted any deposits or amounts which are deemed to be deposits referred in Sections 73, 74, 75 and 76 of the Act and the Rules framed there under.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its certain products. We have broadly reviewed the same and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. (a) In our opinion, the Company is regular in depositing the undisputed statutory dues, including goods and services tax, provident fund, employees' state insurance, income tax, service tax, cess, and other statutory dues, as applicable, with the appropriate authorities.
- (b) The particulars of statutory dues referred to in sub-clause (a) above as at March 31, 2025 which have not been deposited on account of a dispute, are as follows:
- | Name of the statute | Nature of dues | Amount (Rs. In lakhs) | Period to which the amount relates | Forum where the dispute is pending |
|----------------------|----------------|-----------------------|------------------------------------|--|
| Finance Act, 1994 | Service tax | 251 | April 2015 to July 2017 | Commissioner of Central Tax (Appeals II) |
| Income Tax Act, 1961 | Income tax | 71 (*) | FY 2019-20 and FY 2021-22 | Dispute Resolution Panel (DRP) |
- (*) Amount calculated at the applicable tax rate based on the transfer pricing adjustment.
- viii. There are no transactions previously unrecorded in the books of account that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961.
- ix. (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest to any lender during the year.
- (b) On the basis of our audit procedures, we report that the Company has not been declared Wilful Defaulter by any bank or financial institution or government or any government authority.
- (c) In our opinion, the term loans have been applied for the purposes for which they were obtained. Also, refer Note 12 to the financial statements.
- (d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the financial statements of the Company, the Company has not raised funds on short-term basis. Accordingly, reporting under clause 3(ix)(d) of the Order is not applicable to the Company.

- (e) According to the information and explanations given to us and procedures performed by us, we report that the Company did not have any subsidiaries, joint ventures or associate companies during the year. Accordingly, reporting under clause 3(ix)(e) of the Order is not applicable to the Company.
- (f) According to the information and explanations given to us and procedures performed by us, we report that the Company did not have any subsidiaries, joint ventures or associate companies during the year. Accordingly, reporting under clause 3(ix)(f) of the Order is not applicable to the Company.
- x. (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under clause 3(x)(a) of the Order is not applicable to the Company.
- (b) The Company has made a private placement of optionally convertible debentures during the year, in compliance with the requirements of Section 42 and 62 of the Act. The funds raised have been used for the purpose for which funds were raised.
- xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management.
- (b) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, a report under Section 143(12) of the Act, in Form ADT-4, as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 was not required to be filed with the Central Government. Accordingly, the reporting under clause 3(xi)(b) of the Order is not applicable to the Company.
- (c) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, and as represented to us by the management, no whistle-blower complaints have been received during the year by the Company. Accordingly, the reporting under clause 3(xi)(c) of the Order is not applicable to the Company.
- xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the reporting under clause 3(xii) of the Order is not applicable to the Company.
- xiii. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of related party transactions have been disclosed in the financial statements as required under Indian Accounting Standard 24 "Related Party Disclosures" specified under Section 133 of the Act.
- xiv. (a) In our opinion, the Company has an internal audit system commensurate with the size and nature of its business.
- (b) The reports of the Internal Auditor for the period under audit have been considered by us.

- xv. In our opinion, the Company has not entered into any non-cash transactions with its directors or persons connected with him. Accordingly, the reporting on compliance with the provisions of Section 192 of the Act under clause 3(xv) of the Order is not applicable to the Company.
- xvi. (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under clause 3(xvi)(a) of the Order is not applicable to the Company.
- (b) The Company has not conducted non-banking financial / housing finance activities during the year. Accordingly, the reporting under clause 3(xvi)(b) of the Order is not applicable to the Company.
- (c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under clause 3(xvi)(c) of the Order is not applicable to the Company.
- (d) In our opinion, the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) does not have any CICs, which are part of the Group. Accordingly, the reporting under clause 3(xvi)(d) of the Order is not applicable to the Company.
- xvii. The Company has not incurred any cash losses in the financial year or in the immediately preceding financial year.
- xviii. There has been resignation of the statutory auditors during the year and we have taken into consideration the issues, objections or concerns raised by the outgoing auditors.
- xix. On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date will get discharged by the Company as and when they fall due.
- xx. The provisions relating to Corporate Social Responsibility under Section 135 of the Act are not applicable to the Company. Accordingly, reporting under clause 3(xx) of the Order is not applicable to the Company.

1. Corporate information

Brigade Properties Private Limited ('the Company' or 'BPPL') (bearing CIN number U70200KA2007PTC042824) was incorporated on May 16, 2007. The Company is engaged in the business of real estate development and leasing.

On June 25, 2012, BPPL, Brigade Enterprises Limited, India ("BEL") and Reco Begonia Pte Limited ("RBPL"), Singapore had executed Share Subscription Agreement ("SSA") and Shareholders Agreement ("SHA") (BEL and RBPL collectively referred to as "Investors") pursuant to which the Investors have invested in the Company for execution of real estate project. On March 16, 2015, the Company and the Investors have executed a Restated Shareholders Agreement ("RSHA"), which is in supersession of the SHA to pursue new real estate projects which reflects the revised understanding between the Investors and the Company. Hereinafter, SSA and RSHA are collectively referred to as the "Investment Agreements".

BPPL had issued 490 A Series Non-Convertible Debentures ('NCD') of Rs.1,000,000 each on March 20, 2015, which were listed on BSE Limited ('BSE') on March 30, 2015. During the year, on March 19, 2025, the Company has redeemed this NCD at face value. Subsequent to the redemption the Company stands delisted from BSE with effect from March 27, 2025.

The financial statements were authorized for issue in accordance with a resolution of the Board of directors of the Company on April 21, 2025 and are subject to the approval of the shareholders at the Annual General Meeting.

2. Basis of preparation

The financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and presentation requirements of Division II of Schedule III to the Companies Act, 2013 (Ind AS compliant Schedule III), as applicable to the financial statements.

The financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the material accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

2.1 Summary of material accounting policies

(a) Use of estimates

The preparation of financial statements in conformity with Ind AS requires the Management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the Management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities. The effect of change in an accounting estimate is recognized prospectively.

(b) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has evaluated and considered its operating cycle as below and accordingly has reclassified its assets and liabilities into current and non-current:

- Real estate development and sale of real estate property-3 to 5 years
- Leasing business -1 year

Assets and liabilities, other than those discussed above, are classified as current to the extent they are expected to be realized/ are contractually repayable within 12 months from the Balance sheet date and as non-current, in other cases.

Deferred tax assets/liabilities are classified as non-current assets/liabilities.

(c) Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. This applies mainly to components for machinery. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from its previously assessed standard of performance. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Borrowing costs directly attributable to acquisition of property, plant and equipment which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.

An item of property, plant and equipment and any significant part initially recognized is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the Property, plant and equipment is de-recognized.

Expenditure directly relating to construction activity is capitalized. Indirect expenditure incurred during construction period is capitalized to the extent to which the expenditure is indirectly related to construction or is incidental thereto. Other indirect expenditure (including borrowing costs) incurred during the construction period which is neither related to the construction activity nor is incidental thereto is charged to the statement of profit and loss.

Costs of assets not ready for use at the balance sheet date are disclosed under capital work- in- progress.

(d) Investment property

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in profit or loss as incurred.

Though the Company measures investment property using cost-based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer.

Investment properties are de-recognized when the entity transfers control of the same to the buyer. Further the entity also derecognises investment properties when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of de-recognition.

Costs of assets not ready for use at the balance sheet date are disclosed under Investment Property under Development (IPUD).

Transfers are made to (or from) investment properties only when there is a change in use. Transfers between investment property, owner-occupied property and inventories do not change the carrying amount of the property transferred and they do not change the cost of that property for measurement or disclosure purposes.

The valuations are performed by an independent external valuer, who specialises in valuating these types of investment properties and such valuer is a registered valuer as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017.

(e) Depreciation

Depreciation is calculated on written down value basis using the following useful lives estimated by the Management, which are equal to those prescribed under Schedule II to the Companies Act, 2013:

Category of Asset	Useful lives (in years)
Buildings	60
Plant and machinery	15
Electrical Installation and equipment	10
Furniture and fixtures	10
Computer hardware	
- Computer equipment	3
- Servers and network equipment	6
Office equipment	5
Motor vehicles	8

For certain assets, depreciation is calculated on a written down value basis using the rates arrived at, based on the useful lives estimated by the Management based on technical assessment as below:

Category of Asset	Useful lives (in years)	Schedule II lives (in years)
Fitouts	5 to 6	10

The Management believes that the above estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment and investment property are reviewed at each financial year end and adjusted prospectively, if appropriate.

(f) Impairment

A. Financial assets

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired and measures the required expected credit losses through a loss allowance. The Company recognizes lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

B. Non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses are recognized in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

(g) Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized/inventorised as part of the cost of the respective asset. All other borrowing costs are charged to statement of profit and loss.

(h) Inventories

Direct expenditure relating to real estate activity is inventorised. Other expenditure (including borrowing costs) during construction period is inventorised to the extent the expenditure is directly attributable cost of bringing the asset to its working condition for its intended use. Other expenditure (including borrowing costs) incurred during the construction period which is not directly attributable for bringing the asset to its working condition for its intended use is charged to the statement of profit and loss. Direct and other expenditure is determined based on specific identification to the real estate activity.

Work-in-progress represents cost incurred in respect of under construction real estate development projects (including land).

Inventories are valued at lower of cost and net realizable value.

Cost is determined based on FIFO Basis. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(i) Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts and other credits, if any, as specified in the contract with the customer. The Company presents revenue from contracts with customers net of indirect taxes in its statement of profit and loss.

The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price, the Company considers the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer, if any.

Revenue from real estate development of residential or commercial unit is recognised at the point in time, when the control of the asset is transferred to the customer.

Revenue consists of sale of undivided share of land and constructed area to the customer, which have been identified by the Company as a single performance obligation, as they are highly interrelated/ interdependent.

The performance obligation in relation to real estate development is satisfied upon completion of project work and transfer of control of the asset to the customer.

For contracts involving sale of real estate unit, the Company receives the consideration in accordance with the terms of the contract in proportion of the percentage of completion of such real estate project and represents payments made by customers to secure performance obligation of the Company under the contract enforceable by customers. Such consideration is received and utilised for specific real estate projects in accordance with the requirements of the Real Estate (Regulation and Development) Act, 2016. Consequently, the Company has concluded that such contracts with customers do not involve any financing element since the same arises for reasons explained above, which is other than for provision of finance to/from the customer.

Contract balances

Contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Cost to obtain a contract

The Company recognises as an asset the incremental costs of obtaining a contract with a customer if the Company expects to recover those costs. The Company incurs costs such as sales commission when it enters into a new contract, which are directly related to

winning the contract. The asset recognised is amortised on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates.

Income from leasing

Rental income receivable under operating leases (excluding variable rental income) is recognized in the income statement on a straight-line basis over the term of the lease including lease income on fair value of refundable security deposits. Rental income under operating leases having variable rental income is recognized as per the terms of the contract.

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Where the Company is lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset is classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Interest income

Interest income, including income arising from other financial instruments, is recognised using the effective interest rate method. Interest on delayed payment by customers are accounted when reasonable certainty of collection is established.

(j) Foreign currency translation

Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

Foreign currency transactions and balances

- i) Initial recognition - Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.
- ii) Conversion - Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.
- iii) Exchange differences - The Company accounts for exchange differences arising on translation/ settlement of foreign currency monetary items as income or as expense in the period in which they arise.

(k) Retirement and other employee benefits

Defined Contribution Plans

The provisions of the Employees' Provident Funds & Miscellaneous Provisions Act, 1952 and Employees' State Insurance Act, 1948, Payment of Gratuity Act, 1972 etc. are not applicable to the Company as the number of employees are less than the minimum required employees under the said acts.

However, the Company has opted to voluntarily contribute to the Employees Provident Fund and Employees' Pension Scheme. These Contributions are recognized as expense during the period in which services are rendered by the employees.

(l) Income taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

i. Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for that period. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

ii. Deferred income tax

Deferred income tax is recognized on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax relating to items recognized outside profit or loss is recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

(m) Provisions and contingent liabilities

A provision is recognized when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses it in the financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote.

If the company has a contract that is onerous, the present obligation under the contract is established, the Company recognises any impairment loss that has occurred on assets dedicated to the contract.

(n) Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents in the balance sheet comprise cash on hand and bank balances which are unrestricted for withdrawal and usage.

(o) Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(p) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i. Initial recognition and measurement of financial assets and liabilities

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

ii. Compound Financial Instruments

Ind As 109 deals with the measurement of financial assets and financial liabilities. Equity instruments are instruments that evidence a residual interest in the assets of an entity after deducting all of its liability. Therefore, when the initial carrying amount of compound financial instruments is allocated to its equity and liability components:

The equity component is assigned the residual amount i.e.

- > Fair value of the instrument as a whole less;
- > The amount separately determined for the liability component.

The sum of the carrying amounts assigned to the liability and equity components on initial recognition is always equal to the fair value that would be ascribed to the instrument as a whole.

No gain or loss arises from initially recognizing the components of the instruments separately.

iii. Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

iv. Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

v. Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in statement of profit and loss.

vi. Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

vii. Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments. Gains or losses on liabilities held for trading are recognized in the profit or loss.

viii. Financial liabilities at amortized cost

Financial liabilities are subsequently carried at amortized cost using the effective interest ('EIR') method.

Interest-bearing loans and borrowings are subsequently measured at amortized cost using EIR method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ix. De-recognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under Ind AS 109.

A financial liability (or a part of a financial liability) is derecognized when the obligation specified in the contract is discharged or cancelled or expires.

x. Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial instruments.

xi. Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses following hierarchy and assumptions that are based on market conditions and risks existing at each reporting date.

Fair value hierarchy:

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
 - ▶ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
 - ▶ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable
- For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(q) Segment reporting

Based on the “management approach”, as defined under Ind AS 108 - Operating segments, the operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). The board of directors have been identified as the CODM who assess the business condition and Company's performance on a periodical basis to take decisions on resource allocation.

i. Identification of segments - The Company's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.

ii. Inter-segment transfers - The Company generally accounts for intersegment sales and transfers at appropriate margins.

iii. Unallocated items - Unallocated items include general corporate asset, liability, income and expense items which are not allocated to any business segment.

iv. Segment accounting policies - The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

2.2 Significant accounting judgments, estimates and assumptions

The preparation of the Company's financial statements requires Management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In the process of applying the Company's accounting policies, Management makes judgment, estimates and assumptions which have the most significant effect on the amounts recognized in the financial statements. The key judgment, estimates and assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, which have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its judgments and assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur. Also refer note 2.3 below.

Significant accounting judgements, estimates and assumptions used by Management are as below:

Revenue from contracts with customers

The Company applied the following judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers:

(i) Identification of performance obligation

Revenue consists of sale of undivided share of land and constructed area to the customer, which have been identified by the Company as a single performance obligation, as they are highly interrelated/ interdependent. In assessing whether performance obligations relating to sale of undivided share of land and constructed area are highly interrelated/ interdependent, the Company considers factors such as:

- whether the customer could benefit from the undivided share of land or the constructed area on its own or together with other resources readily available to the customer.
- whether the entity will be able to fulfil its promise under the contract to transfer the undivided share of land without transfer of constructed area or transfer the constructed area without transfer of undivided share of land.

(ii) Timing of satisfaction of performance obligation

Revenue from sale of real estate units is recognised when (or as) control of such units is transferred to the customer. The entity assesses timing of transfer of control of such units to the customers as transferred over time if one of the following criteria are met:

- The customer simultaneously receives and consumes the benefits provided by the entity's performance as the entity performs.
- The entity's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.
- The entity's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date.

If control is not transferred over time as above, the entity considers the same as transferred at a point in time.

For contracts where control is transferred at a point in time, the Company considers the following indicators of the transfer of control of the asset to the customer:

- When the entity obtains a present right to payment for the asset.
- When the entity transfers legal title of the asset to the customer.
- When the entity transfers physical possession of the asset to the customer.
- When the entity transfers significant risks and rewards of ownership of the asset to the customer.
- When the customer has accepted the asset.

(iii) Classification of leases – Company as lessor

Classification of lease arrangements as operating lease or finance lease

Where the Company retains all the significant risks and rewards of ownership of the properties it accounts for the same as operating leases.

A lease is classified as a finance lease if it transfers substantially all of the risks and rewards incidental to ownership of an underlying asset.

The Company has entered into commercial property and fit-out leases on its investment property portfolio. The Company has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property or fit-outs and the fair value of the asset, that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases else the same is accounted as finance lease.

(iv) Determining the lease term of contracts with renewal and termination options - Company as lessor

The Company has several lease contracts that include non-cancellable terms with the extension and termination option. The Company considers non-cancellable terms as the lease term. The Company applies judgement in evaluating whether it is reasonably certain whether or not the lessee shall exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for the lessee to exercise the renewal or termination. Rental income from these leases are recognised as part of revenue from operations in the statement of profit and loss on a straight-line basis over the non-cancellable period of the lease.

Fair valuation of Investment Property

Investment property is stated at cost. However, as per Ind AS 40 there is a requirement to disclose fair value as at the balance sheet date. The Company engaged independent valuation specialists to determine the fair value of its investment property as at reporting date. The determination of the fair value of investment properties requires the use of estimates such as future cash flows from the assets (such as lettings, future revenue streams, capital values of fixtures and fittings, any environmental matters and the overall repair and condition of the property) and discount rates applicable to those assets. These estimates are based on local market conditions existing at the balance sheet date.

Measurement of financial instruments at amortized cost

Financial instruments are subsequently measured at amortized cost using the effective interest ('EIR') method. The computation of amortized cost is sensitive to the inputs to EIR including effective rate of interest, contractual cash flows and the expected life of the financial instrument. Changes in assumptions about these inputs could affect the reported value of financial instruments.

Classification of property as investment property or inventory

Investment property comprises land and buildings, principally commercial properties, that are not occupied substantially for use by, or in the operations of, the Company, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are substantially rented to tenants and not intended to be sold in the ordinary course of business.

Inventory comprises property that is held for sale in the ordinary course of business. Principally, this is residential and commercial property that the Company develops and intends to sell before or during the course of construction or upon completion of construction.

2.3 Going concerns assumption

The Company has accumulated losses amounting to Rs. 30,930 lakhs as at March 31, 2025 (March 31, 2024: Rs. 31,098 lakhs). In addition, the Company has a net current liability of Rs. 508 lakhs as at March 31, 2025 (March 31, 2024: Rs. 11,880 lakhs). During the year, the Company has leased out additional commercial property space resulting in higher leasing income and accordingly has generated profits of Rs. 168 lakhs (March 31, 2024: loss of Rs. 5,096 lakhs) which is projected to increase in coming years. During the year ended March 31, 2025, the Company has availed additional Lease Rental Discounting (LRD) loan from bank, secured against rental income from leasing out commercial property to meet its current liabilities and has an unutilized additional facility of Rs. 20,949 lakhs as at the year end (March 31, 2024: Rs. 6,367 lakhs). Furthermore, the Company has received a letter from Brigade Enterprises Limited, the Holding Company confirming financial and other support that will be available to the Company to settle its obligations as they arise and to continue in operations. Based on the projected cashflows including the factors mentioned above, the Board of Directors consider it appropriate to prepare the financial statements on a going concerns basis. Accordingly, the Company expects that the carrying value of its assets including investment property, inventories, deferred tax assets and receivables as at the period end as fully recoverable.

2.4 New and amended standards adopted by the Company

The Ministry of Corporate Affairs vide notification dated September 9, 2024 and September 28, 2024 notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024 and Companies (Indian Accounting Standards) Third Amendment Rules, 2024, respectively, which amended/ notified certain accounting standards (see below), and are effective for annual reporting periods beginning on or after April 1, 2024:

- Insurance contracts - Ind AS 117; and
- Lease Liability in Sale and Leaseback – Amendments to Ind AS 116

These amendments did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

(e) Refer note 12 for details of Investment property pledged as security for borrowings.

(f) The Company has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements, except as disclosed in note 12 and 26(b).

(g) Fair value of investment property:

	March 31, 2025	March 31, 2024
Office property	274,596	278,706

The valuation is performed by an independent external valuer, who specialises in valuating these types of investment properties and such valuer is a registered valuer as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017.

The fair value of investment properties is primarily based on discounted cashflow method ('DCM') and classified as level 3 fair value in the fair value hierarchy due to the use of unobservable inputs.

Description of valuation techniques used and key inputs to valuation on investment properties:

Investment property	Valuation technique	Significant observable inputs	Range (weighted average)	
			March 31, 2025	March 31, 2024
Office property	DCF method	- Estimated rental Value per sq. ft. per month	Rs. 65 - Rs. 75	Rs. 60 - Rs. 67
		- Rent growth p.a.	4.77%	4.77%
		- Discount rate	12%	12%
		- Vacancy rate	0.00%	0.69%

Under the DCF method, fair value is estimated using assumptions regarding the benefits and liabilities of ownership over the asset's life including an exit or terminal value. This method involves the projection of a series of cash flows on a real estate property interest. To this projected cash flow series, a market-derived discount rate is applied to establish the present value of the income stream associated with the asset.

The duration of the cash flows and the specific timing of inflows and outflows are determined by events such as rent reviews, lease renewal and related re-letting, redevelopment, or refurbishment. The appropriate duration is typically driven by market behaviour that is a characteristic of the class of real estate property. Periodic cash flow is typically estimated as gross income, non-recoverable expenses, collection losses, lease incentives, maintenance cost and other operating and management expenses. The series of periodic net operating income, along with an estimate of the terminal value anticipated at the end of the projection period, is then discounted.

Significant increases/ (decreases) in estimated rental value and rent growth per annum in isolation would result in a significantly higher/ (lower) fair value of the properties. Significant increases/ (decreases) in discount rate (and exit yield) in isolation would result in a significantly lower (higher) fair value.

Notes:

1. The Taxation Laws (Amendment) Ordinance, 2019 ('the Ordinance') provides an option to domestic companies to pay income-tax at a lower rate of 25.17% instead of the normal rate of 29.12% (as applicable to the Company), if it opts for not availing of certain specified exemptions or incentives. During the previous financial year, the Company has made an assessment of the impact of the Ordinance and has opted for the lower tax rate of 25.17%. Consequently, the Company has re-measured the deferred taxes at the lower rate of 25.17%.

28 Financial risk management objectives and policies

The Company's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade receivables, other receivables and cash and cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. One of the shareholders, Brigade Enterprises Limited oversees the management of these risks and ensures that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives.

i. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and other price risk, such as equity price risk and commodity/ real-estate risk.

Interest rate risk is the risk that the fair value or future cash flows of the Company's financial instruments will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates on borrowings from banks.

The Company is affected by the price volatility of certain commodities/ real estate. Its operating activities require the ongoing development of real estate. The Company's management has developed and enacted a risk management strategy regarding commodity/ real estate price risk and its mitigation. The Company is subject to the price risk variables, which are expected to vary in line with the prevailing market conditions.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant. The impact on the entity's profit before tax is due to changes in the fair value of financial assets and liabilities.

Particulars	Change in interest rate	Effect on loss before tax
March 31, 2025	+1%	1,374
	-1%	(1,374)
March 31, 2024	+1%	1,437
	-1%	(1,437)

The Company invests surplus funds in short term fixed deposits which carry a fixed rate of interest. Therefore the said assets are not subject to interest rate risk.

ii. Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments if a counterparty defaults on its obligations. The Company's exposure to credit risk arises majorly from trade receivables and other financial assets.

Other financial assets like margin money deposits are with banks and the Company does not expect any credit risk with respect to these financial assets.

With respect to trade receivables, the Company has constituted teams to review trade receivables on periodic basis and to take necessary mitigations, wherever required. The Company creates allowance for all unsecured trade receivables based on lifetime expected credit loss. At the balance sheet date, there was no significant concentration of credit risk and exposure thereon. With respect to finance and operating lease receivable, the Company considers the credit risk as negligible as the customers have made upfront refundable interest free security deposit with respect to these leases.

iii. Liquidity Risk

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company believes that the cash and cash equivalents is sufficient to meet its current requirements. Accordingly no liquidity risk is perceived.

The break-up of cash and cash equivalents and deposits is as below.

Particulars	March 31, 2025	March 31, 2024
Cash and cash equivalents (Refer note 9.1)	2,658	10,920
Bank balances other than cash and cash equivalents (Refer note 9.2)	897	3,083

Borrowings -others borrowings	Between 1-5 years	16,014	16,000
Other financial liabilities			
- Lease deposits	Between 1-5 years	9,548	13,541

29 Fair values

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- > Refer note 3.2 with respect to investment properties
- > The Management assessed that the carrying values of cash and bank balances, trade receivables, trade payables, and other current financial assets and liabilities approximate their fair values largely due to their short-term maturities.
- > The Management assessed that the carrying values of bank deposits, borrowings and other financial assets and liabilities approximate their fair values based on cash flow discounting using parameters such as interest rates, tenure of instrument, creditworthiness of the customer and the risk characteristics of the financed project, as applicable.

These financial assets and financial liabilities are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs as explained above.

There have been no transfers between levels during the year.

Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments:

Particulars	March 31, 2025		March 31, 2024	
	Carrying Value	Fair Value	Carrying Value	Fair Value

The Company's objectives of capital management is to maximize the shareholder value. In order to maintain or adjust the capital structure, the Company may adjust the return to shareholders, issue/ buyback shares or sell assets to reduce debt. The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants.

The Company monitors capital using a gearing ratio, which is net debt divided by total equity plus net debt as below.

- Equity includes Equity share capital and all Other Equity components attributable to the Equity holders
- Net Debt includes borrowings (non-current and current), trade payables and other financial liabilities, less cash and cash equivalents including balances at bank other than cash and cash equivalents and margin money deposits with banks

	March 31, 2025	March 31, 2024
Borrowings (current and non-current borrowings) (Refer note 12)	129,125	147,739
Trade payables (Refer note 14)	1,223	1,314
Other financial liabilities (non-current and current) (Refer note 13)	19,942	19,427
Less: Cash and cash equivalents (including balances at bank other than cash and cash equivalents and margin money deposits with banks) (Refer note 9.1, 9.2 & 4)	(7,743)	(18,870)
Net Debt (A)	142,547	149,610
Equity share capital (Refer note 10)	3,827	3,827
Other equity (Refer note 11)	(15,385)	(15,641)
Equity (B)	(11,558)	(11,814)
Equity plus net debt (C = A + B)	130,989	137,796
Gearing ratio (D = A / C)	109%	109%

In order to achieve the objective to maximize shareholder value, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing borrowings that define capital structure requirements. Any significant breach in meeting the financial covenants would allow the bank to call borrowings. There have been no breaches in the financial covenants of above-mentioned interest-bearing borrowing.

No changes were made in the objectives, policies or processes for managing capital during the current and previous years.

32 Segment Reporting

For management purposes, the Company is organised into 2 Strategic Business Units (SBUs) based on risks and rates of return of the products and services offered by those SBUs as per Ind AS 108 as follows:

- Real Estate: development and sale of real estate property
- Leasing: development and leasing of commercial property

The management reviews operating results of SBUs separately for the purpose of making decisions about resource allocation and performance assessment. Also, the Company's financing activities (including finance costs and finance income) and income taxes are managed at corporate level and are not allocated to operating segments.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.
